

Privacy Policy

The following describes the Privacy Policy for BinaryOptionsAuthority.com website.

Your Privacy

If your're from Europe don't use this site due to your GDPR laws. Go away or move to the USA.

Whatever tracking or privacy involvement this site uses is controled by third party software providers. Contact them if you want to learn more in regards to how they handle your privacy. Even if you become our customer your credit card data is stored on 3rd party services such as authorize.net or clickbank.com or stripe.com. Big companies and governments have been selling your data and tracking you every where you go even without your permission. So deal with them.

Your privacy is important to us. To better protect your privacy we provide this notice explaining our online information practices and the choices you can make about the way your information is collected and used. You agree to agree to these policies by virtue of using our website in a way that leads to you providing us with personal information.

State Law & Accompanying Rights

Please understand that you may have additional rights originating from State laws based on where you live. These State-based rights may augment, strengthen, or otherwise somehow compliment any privacy rights you have inherently or under Federal law. Our policy is to comply fully with the privacy policies of every jurisdiction in which we operate. Accordingly, you are free to use our Contact information to reach us at any time to assert any State rights.

Our Commitment To Children's Privacy

Protecting the privacy of the very young is especially important. For that reason, our website will never collect or maintain information at our website from those we actually know are under 18, and no part of our website is structured to attract anyone under 18.

Under our Terms of Service and Conditions of Use, children under 18 are not allowed to use our website and access our services. It is not our intention to offer products or services to minors.

Google Analytics

BinaryOptionsAuthority.com uses Google Analytics to help analyse how users use the site. The tool uses "cookies," which are text files placed on your computer, to collect standard Internet log information and visitor behaviour information in an anonymous form. The information generated by the cookie about your use of the website (including your IP address) is transmitted to Google. This information is then used to evaluate visitors' use of this website and to compile statistical reports on website activity.

We will never (and will not allow any third party to) use the statistical analytics tool to track or to collect any Personally Identifiable Information of visitors to our site. Google will not associate your IP address with any other data held by Google. Neither we nor Google will link, or seek to link, an IP address with the identity of a computer user.

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. By using this website, you consent to the processing of data about you by Google in the manner and for the purposes set out above.

Other Collection of Personal Information

When visiting our website, the IP address used to access our website may be logged along with the dates and times of access. This information is purely used to analyze trends, administer our website, track users movement, and gather broad demographic information for internal use such as statistical assessments and website improvement. Most importantly, any recorded IP addresses are not linked to personally identifiable information.

Other information may be collected as well, which is rather typical of most websites. For instance, the source that referred you to our website is generally known. Likewise, your duration on our website, and your destination when you leave our website can also be tracked. Other common data collected includes the type of operating system the computer you are using to access our website has. Similarly, the type of web browser is often noted. Again, this is common data collection, and helps ultimately produce a better end-user experience.

Cookies are another common internet practice. Cookies are a key means of improving user experience by allows us to customize your use of our website. Simple information is transferred to your computer to allow the content and experience to reflect your actions, preferences, and so on. You should simply make the assumption our website uses cookies, and note that you are free to make adjustments in your web browser to disable these or otherwise receive notification of cookies so you can take whatever desired action you so choose. Please understand that refusing cookies may cripple some of our website features and render some aspects useless to you.

At times, you will be fully aware of information received, as you are the direct source providing it. For instance, you may comment on a blog post, reply to an email (whether broadcast message or autoresponder), provide an email address, complete a survey, requests SMS, or otherwise. Likewise, purchases necessarily involve collecting certain information, such as

credit card information, Paypal addresses, your physical address for billing and/or shipping, phone number, and so on. Refusing to provide some of this information may lead to us being unable to provide you with the products or services you've requested.

A prime example of limited access to our website is where content may be protected by a username and password. Whether a username and password is generated by our website, or created by you, these will almost always be connected with some other information related to or connected with you. This is true since much content that is protected on the internet is subscription based, often paid for. Thus, the username and password must necessarily be tied to your other account data. Usernames and passwords, by their very nature, should be kept private.

Handling of Personal Information

Note that any personal information you provide to others apart from us or our vendors is wholly optional. As an example, you might disclose something in a blog post comment. That "private" information is now "public," and we have no control over that. In like fashion, you sharing information with any other third party not functioning as a service provider to us puts that information beyond our control and becomes subject to the policy that party has in place.

Our primary intention for collecting personal and private information from you is simply to conduct our business. We can use this internally to better serve you. Accordingly, we see no reason to share your personal information to other parties and outside interests unless you have authorized us to do so.

Of course, there are instances where your information is stored with third party service providers, such as email service providers, as they provide services that are industry-leading in quality and security and are far more beneficial to

our end user than attempting such services “in-house.” However, you are never required to deal with any such third party directly, they are limited in how they use your information, and they cannot sell or transfer it to others in any way.

However, of course, your information does comprise part of an overall whole. This aggregate of information, by contrast, may be used to understand our overall user base. Further, we may share this information about our website visitors as a whole, not individually, with third parties for various purposes, in our sole discretion.

While we are staunch privacy advocates, there are times when even we may be forced to abandon these ideals. Just as major search engines face ongoing compulsion to provide data against their will, so too may the same occur with our website. Illegal activity or other serious acts or allegations could create legal liability for our website. In those cases, we reserve the right to share your information, or else may simply be compelled to do so by law.

On the other hand, there may be times when we would need to share your private information in order to protect our own interests. For instance, in cases of suspected or alleged copyright infringement or other intellectual property violations, it may be necessary to share personal information.

Google AdSense and the DoubleClick DART Cookie

Google, as a third party advertisement vendor, may use cookies to serve ads on this website. The use of DART cookies by Google enables them to serve adverts to visitors that are based on their visits to this website, including past visits, as well as other websites on the internet.

To opt out of the DART cookies you may visit the Google ad and content network privacy policy at the following url http://www.google.com/privacy_ads.html Tracking of users

through the DART cookie mechanisms are subject to Google's own privacy policies.

Other Third Party ad servers or ad networks may also use cookies to track users activities on this website to measure advertisement effectiveness and other reasons that will be provided in their own privacy policies, our website has no access or control over these cookies that may be used by third party advertisers. However, you can opt out of some, though likely not all, of these cookies in one easy location at http://ww.networkadvertising.org/managing/opt_out.asp

Links to Third Party Websites

We have included links on this website for your use and reference. We are not responsible for the privacy policies on these websites. You should be aware that the privacy policies of these websites may differ from our own.

Comments Policy

As you know, Web 2.0 is all about the conversation. But without a few simple ground rules, that conversation can turn into a shouting match that discourages others from entering into the fray.

So here is BinaryOptionsAuthority.com comments policy. By posting on my blog, you agree to the following:

You may comment without registering. You can log-in via Disqus, OpenID, Twitter, Facebook—or not at all. It's up to you. You may post anonymously. I don't recommend this, but you may do so if you wish. I may change this rule if it is abused.

You may post follow-up questions. If you have a question, chances are you are not alone. Others are likely thinking similarly. Therefore, I would rather receive your comments on BinaryOptionsAuthority.com than via email. It is a better use of my time to address everyone at once rather than answer

several similar emails.

You may disagree with me. I welcome debate. However, I ask that if you disagree with me—or anyone else, for that matter—do so in a way that is respectful. In my opinion, there is way too much shouting in the public square to tolerate it here.

BinaryOptionsAuthority.com reserves the right to delete your comments. This is my blog. I don't have an obligation to publish your comments. The First Amendment gives you the right to express your opinions on your blog not mine.

Specifically, I will delete your comments if you post something that is, in my sole opinion, (a) snarky; (b) off-topic; (c) libelous, defamatory, abusive, harassing, threatening, profane, pornographic, offensive, false, misleading, or which otherwise violates or encourages others to violate my sense of decorum and civility or any law, including intellectual property laws; or (d) "spam," i.e., an attempt to advertise, solicit, or otherwise promote goods and services. You may, however, post a link to your site or your most recent blog post.

You retain ownership of your comments. I do not own them and I expressly disclaim any and all liability that may result from them. By commenting on my site, you agree that you retain all ownership rights in what you post here and that you will relieve me from any and all liability that may result from those postings.

You grant BinaryOptionsAuthority.com a license to post your comments. This license is worldwide, irrevocable, non-exclusive, and royalty-free. You grant me the right to store, use, transmit, display, publish, reproduce, and distribute your comments in any format, including but not limited to a blog, in a book, a video, or presentation.

In short, my goal is to host interesting conversations with

caring, honest, and respectful people. I believe this simple comments policy will facilitate this.

CHANGE NOTICE: As with any of our administrative and legal notice pages, the contents of this page can and will change over time. Accordingly, this page could read differently as of your very next visit. These changes are necessitated, and carried out by BinaryOptionsAuthority.com, in order to protect you and our BinaryOptionsAuthority.com website. If this page is important to you, you should check back frequently as no other notice of changed content will be provided either before or after the change takes effect.

COPYRIGHT WARNING: The legal notices and administrative pages on this website, including this one, have been diligently drafted by an attorney. We at BinaryOptionsAuthority.com have paid to license the use of these legal notices and administrative pages on BinaryOptionsAuthority.com for your protection and ours. This material may not be used in any way for any reason and unauthorized use is policed via Copyscape to detect violators.

QUESTIONS/COMMENTS/CONCERNS: If you have any questions about the contents of this page, or simply wish to reach us for any other reason, you may do so by following this link: <http://binaryoptionsauthority.com>

Extended Privacy Policy

We are very delighted that you have shown interest in our enterprise. Data protection is of a particularly high priority for the management of the <http://binaryoptionsauthority.com>. The use of the Internet pages of the <http://binaryoptionsauthority.com> is possible without any indication of personal data; however, if a data subject wants to use special enterprise services via our website, processing of personal data could become

necessary. If the processing of personal data is necessary and there is no statutory basis for such processing, we generally obtain consent from the data subject.

The processing of personal data, such as the name, address, e-mail address, or telephone number of a data subject shall always be in line with the General Data Protection Regulation (GDPR), and in accordance with the country-specific data protection regulations applicable to the <http://binaryoptionsauthority.com>. By means of this data protection declaration, our enterprise would like to inform the general public of the nature, scope, and purpose of the personal data we collect, use and process. Furthermore, data subjects are informed, by means of this data protection declaration, of the rights to which they are entitled.

As the controller, the <http://binaryoptionsauthority.com> has implemented numerous technical and organizational measures to ensure the most complete protection of personal data processed through this website. However, Internet-based data transmissions may in principle have security gaps, so absolute protection may not be guaranteed. For this reason, every data subject is free to transfer personal data to us via alternative means, e.g. by telephone.

1. Definitions

The data protection declaration of the <http://binaryoptionsauthority.com> is based on the terms used by

the European legislator for the adoption of the General Data Protection Regulation (GDPR). Our data protection declaration should be legible and understandable for the general public, as well as our customers and business partners. To ensure this, we would like to first explain the terminology used.

In this data protection declaration, we use, inter alia, the following terms:

a) Personal data

Personal data means any information relating to an identified or identifiable natural person ("data subject"). An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

b) Data subject

Data subject is any identified or identifiable natural person, whose personal data is processed by the controller responsible for the processing.

c) Processing

Processing is any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission,

dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

d) Restriction of processing

Restriction of processing is the marking of stored personal data with the aim of limiting their processing in the future.

e) Profiling

Profiling means any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to a natural person, in particular to analyse or predict aspects concerning that natural person's performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements.

f) Pseudonymisation

Pseudonymisation is the processing of personal data in such a manner that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organisational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

g) Controller or controller responsible for the processing

Controller or controller responsible for the processing is the natural or legal

person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

h) Processor

Processor is a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

i) Recipient

Recipient is a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not. However, public authorities which may receive personal data in the framework of a particular inquiry in accordance with Union or Member State law shall not be regarded as recipients; the processing of those data by those public authorities shall be in compliance with the applicable data protection rules according to the purposes of the processing.

j) Third party

Third party is a natural or legal person, public authority, agency or body other than the data subject, controller, processor and persons who, under the direct authority of the controller or processor, are authorised to

process personal data.

k) Consent

Consent of the data subject is any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

2. Name and Address of the controller

Controller for the purposes of the General Data Protection Regulation (GDPR), other data protection laws applicable in Member states of the European Union and other provisions related to data protection is:

[Binary Options AUTHORITY | Best Binary Options Systems and Strategies](#)

701 South Carson Street
Suite #200
Carson City, NV 89701-5239

USA

Contact: from our contact form on this site (email excluded from this page to avoid email harvester spammer bots collection – so use our contact form)

Website: <http://http://binaryoptionsauthority.com>

3. Cookies

The Internet pages of the <http://binaryoptionsauthority.com>

use cookies. Cookies are text files that are stored in a computer system via an Internet browser.

Many Internet sites and servers use cookies. Many cookies contain a so-called cookie ID. A cookie ID is a unique identifier of the cookie. It consists of a character string through which Internet pages and servers can be assigned to the specific Internet browser in which the cookie was stored. This allows visited Internet sites and servers to differentiate the individual browser of the data subject from other Internet browsers that contain other cookies. A specific Internet browser can be recognized and identified using the unique cookie ID.

Through the use of cookies, the <http://binaryoptionsauthority.com> can provide the users of this website with more user-friendly services that would not be possible without the cookie setting.

By means of a cookie, the information and offers on our website can be optimized with the user in mind. Cookies allow us, as previously mentioned, to recognize our website users. The purpose of this recognition is to make it easier for users to utilize our website. The website user that uses cookies, e.g. does not have to enter access data each time the website is accessed, because this is taken over by the website, and the cookie is thus stored on the user's computer system. Another example is the cookie of a shopping cart in an online shop. The online store remembers the articles that a

customer has placed in the virtual shopping cart via a cookie.

The data subject may, at any time, prevent the setting of cookies through our website by means of a corresponding setting of the Internet browser used, and may thus permanently deny the setting of cookies. Furthermore, already set cookies may be deleted at any time via an Internet browser or other software programs. This is possible in all popular Internet browsers. If the data subject deactivates the setting of cookies in the Internet browser used, not all functions of our website may be entirely usable.

4. Collection of general data and information

The website of the <http://binaryoptionsauthority.com> collects a series of general data and information when a data subject or automated system calls up the website. This general data and information are stored in the server log files. Collected may be (1) the browser types and versions used, (2) the operating system used by the accessing system, (3) the website from which an accessing system reaches our website (so-called referrers), (4) the sub-websites, (5) the date and time of access to the Internet site, (6) an Internet protocol address (IP address), (7) the Internet service provider of the accessing system, and (8) any other similar data and information that may be used in the event of attacks on our information technology systems.

When using these general data and information, the <http://binaryoptionsauthority.com> does not draw any

conclusions about the data subject. Rather, this information is needed to (1) deliver the content of our website correctly, (2) optimize the content of our website as well as its advertisement, (3) ensure the long-term viability of our information technology systems and website technology, and (4) provide law enforcement authorities with the information necessary for criminal prosecution in case of a cyber-attack. Therefore, the <http://binaryoptionsauthority.com> analyzes anonymously collected data and information statistically, with the aim of increasing the data protection and data security of our enterprise, and to ensure an optimal level of protection for the personal data we process. The anonymous data of the server log files are stored separately from all personal data provided by a data subject.

5. Registration on our website

The data subject has the possibility to register on the website of the controller with the indication of personal data. Which personal data are transmitted to the controller is determined by the respective input mask used for the registration. The personal data entered by the data subject are collected and stored exclusively for internal use by the controller, and for his own purposes. The controller may request transfer to one or more processors (e.g. a parcel service) that also uses personal data for an internal purpose which is attributable to the controller.

By registering on the website of the controller, the IP address—assigned by the

Internet service provider (ISP) and used by the data subject—date, and time of the registration are also stored. The storage of this data takes place against the background that this is the only way to prevent the misuse of our services, and, if necessary, to make it possible to investigate committed offenses. Insofar, the storage of this data is necessary to secure the controller. This data is not passed on to third parties unless there is a statutory obligation to pass on the data, or if the transfer serves the aim of criminal prosecution.

The registration of the data subject, with the voluntary indication of personal data, is intended to enable the controller to offer the data subject contents or services that may only be offered to registered users due to the nature of the matter in question. Registered persons are free to change the personal data specified during the registration at any time, or to have them completely deleted from the data stock of the controller.

The data controller shall, at any time, provide information upon request to each data subject as to what personal data are stored about the data subject. In addition, the data controller shall correct or erase personal data at the request or indication of the data subject, insofar as there are no statutory storage obligations. The entirety of the controller's employees are available to the data subject in this respect as contact persons.

6. Subscription to our newsletters

On the website of the <http://binaryoptionsauthority.com>, users are given the opportunity to subscribe to our enterprise's newsletter. The input mask used for this purpose determines what personal data are transmitted, as well as when the newsletter is ordered from the controller.

The <http://binaryoptionsauthority.com> informs its customers and business partners regularly by means of a newsletter about enterprise offers. The enterprise's newsletter may only be received by the data subject if (1) the data subject has a valid e-mail address and (2) the data subject registers for the newsletter shipping. A confirmation e-mail will be sent to the e-mail address registered by a data subject for the first time for newsletter shipping, for legal reasons, in the double opt-in procedure. This confirmation e-mail is used to prove whether the owner of the e-mail address as the data subject is authorized to receive the newsletter.

During the registration for the newsletter, we also store the IP address of the computer system assigned by the Internet service provider (ISP) and used by the data subject at the time of the registration, as well as the date and time of the registration. The collection of this data is necessary in order to understand the (possible) misuse of the e-mail address of a data subject at a later date, and it therefore serves the aim of the legal protection of the controller.

The personal data collected as part of a registration for the newsletter will only be used to send our newsletter. In addition, subscribers to the newsletter may be informed by e-mail, as long as this is necessary for the operation of the newsletter service or a registration in question, as this could be the case in the event of modifications to the newsletter offer, or in the event of a change in technical circumstances. There will be no transfer of personal data collected by the newsletter service to third parties. The subscription to our newsletter may be terminated by the data subject at any time. The consent to the storage of personal data, which the data subject has given for shipping the newsletter, may be revoked at any time. For the purpose of revocation of consent, a corresponding link is found in each newsletter. It is also possible to unsubscribe from the newsletter at any time directly on the website of the controller, or to communicate this to the controller in a different way.

7. Newsletter-Tracking

The newsletter of the <http://binaryoptionsauthority.com> contains so-called tracking pixels. A tracking pixel is a miniature graphic embedded in such e-mails, which are sent in HTML format to enable log file recording and analysis. This allows a statistical analysis of the success or failure of online marketing campaigns. Based on the embedded tracking pixel, the <http://binaryoptionsauthority.com> may see if and

when an e-mail was opened by a data subject, and which links in the e-mail were called up by data subjects.

Such personal data collected in the tracking pixels contained in the newsletters are stored and analyzed by the controller in order to optimize the shipping of the newsletter, as well as to adapt the content of future newsletters even better to the interests of the data subject. These personal data will not be passed on to third parties. Data subjects are at any time entitled to revoke the respective separate declaration of consent issued by means of the double-opt-in procedure. After a revocation, these personal data will be deleted by the controller. The <http://binaryoptionsauthority.com> automatically regards a withdrawal from the receipt of the newsletter as a revocation.

8. Contact possibility via the website

The website of the <http://binaryoptionsauthority.com> contains information that enables a quick electronic contact to our enterprise, as well as direct communication with us, which also includes a general address of the so-called electronic mail (e-mail address). If a data subject contacts the controller by e-mail or via a contact form, the personal data transmitted by the data subject are automatically stored. Such personal data transmitted on a voluntary basis by a data subject to the data controller are stored for the purpose of processing or contacting the data subject. There is no transfer of this personal data to third parties.

9. Comments function in the blog on the website

The <http://binaryoptionsauthority.com> offers users the possibility to leave individual comments on individual blog contributions on a blog, which is on the website of the controller. A

blog is a web-based, publicly-accessible portal, through which one or more people

called bloggers or web-bloggers may post articles or write down thoughts in so-called

blogposts. Blogposts may usually be commented by third parties.

If a data subject leaves a comment on the blog published on this website, the comments

made by the data subject are also stored and published, as well as information on the

date of the commentary and on the user's (pseudonym) chosen by the data subject. In

addition, the IP address assigned by the Internet service provider (ISP) to the data

subject is also logged. This storage of the IP address takes place for security

reasons, and in case the data subject violates the rights of third parties, or posts

illegal content through a given comment. The storage of these personal data is,

therefore, in the own interest of the data controller, so that he can exculpate in the

event of an infringement. This collected personal data will not be passed to third

parties, unless such a transfer is required by law or serves the aim of the defense of

the data controller.

10. Subscription to comments in the blog on the website

The comments made in the blog of the <http://binaryoptionsauthority.com> may be subscribed to by

third

parties. In particular, there is the possibility that a commenter subscribes to the comments following his comments on a particular blog post.

If a data subject decides to subscribe to the option, the controller will send an automatic confirmation e-mail to check the double opt-in procedure as to whether the owner of the specified e-mail address decided in favor of this option. The option to subscribe to comments may be terminated at any time.

11. Routine erasure and blocking of personal data

The data controller shall process and store the personal data of the data subject only for the period necessary to achieve the purpose of storage, or as far as this is granted by the European legislator or other legislators in laws or regulations to which the controller is subject to.

If the storage purpose is not applicable, or if a storage period prescribed by the European legislator or another competent legislator expires, the personal data are routinely blocked or erased in accordance with legal requirements.

12. Rights of the data subject

a) Right of confirmation

Each data subject shall have the right granted by the European legislator to obtain from the controller the confirmation as to whether or not personal data concerning him or her are being processed. If a data subject wishes to avail himself

of this right of confirmation, he or she may, at any time, contact any employee of the controller.

b) Right of access

Each data subject shall have the right granted by the European legislator to obtain from the controller free information about his or her personal data stored at any time and a copy of this information. Furthermore, the European directives and regulations grant the data subject access to the following information:

the purposes of the processing;

the categories of personal data concerned;

the recipients or categories of recipients to whom the personal data have been

or will be disclosed, in particular recipients in third countries or international

organisations;

where possible, the envisaged period for which the personal data will be

stored, or, if not possible, the criteria used to determine that period;

the existence of the right to request from the controller rectification or

erasure of personal data, or restriction of processing of personal data concerning the

data subject, or to object to such processing;

the existence of the right to lodge a complaint with a supervisory authority;

where the personal data are not collected from the data subject, any available

information as to their source;

the existence of automated decision-making, including profiling, referred to

in Article 22(1) and (4) of the GDPR and, at least in those cases, meaningful information about the logic involved, as well as the significance and envisaged consequences of such processing for the data subject.

Furthermore, the data subject shall have a right to obtain information as to whether personal data are transferred to a third country or to an international organisation. Where this is the case, the data subject shall have the right to be informed of the appropriate safeguards relating to the transfer.

If a data subject wishes to avail himself of this right of access, he or she may, at any time, contact any employee of the controller.

c) Right to rectification

Each data subject shall have the right granted by the European legislator to obtain from the controller without undue delay the rectification of inaccurate personal data concerning him or her. Taking into account the purposes of the processing, the data subject shall have the right to have incomplete personal data completed, including by means of providing a supplementary statement.

If a data subject wishes to exercise this right to rectification, he or she may, at any time, contact any employee of the controller.

d) Right to erasure (Right to be forgotten)

Each data subject shall have the right granted by the European

legislator to obtain from the controller the erasure of personal data concerning him or her without undue delay, and the controller shall have the obligation to erase personal data without undue delay where one of the following grounds applies, as long as the processing is not necessary:

The personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed.

The data subject withdraws consent to which the processing is based according to point (a) of Article 6(1) of the GDPR, or point (a) of Article 9(2) of the GDPR, and where there is no other legal ground for the processing.

The data subject objects to the processing pursuant to Article 21(1) of the GDPR and there are no overriding legitimate grounds for the processing, or the data subject objects to the processing pursuant to Article 21(2) of the GDPR.

The personal data have been unlawfully processed.

The personal data must be erased for compliance with a legal obligation in

Union or Member State law to which the controller is subject.

The personal data have been collected in relation to the offer of information

society services referred to in Article 8(1) of the GDPR.

If one of the aforementioned reasons applies, and a data subject wishes to request

the erasure of personal data stored by the <http://binaryoptionsauthority.com>, he or she may, at any time, contact any employee of the controller. An employee of <http://binaryoptionsauthority.com> shall

promptly ensure that the erasure request is complied with

immediately.

Where the controller has made personal data public and is obliged pursuant to Article 17(1) to erase the personal data, the controller, taking account of available technology and the cost of implementation, shall take reasonable steps, including technical measures, to inform other controllers processing the personal data that the data subject has requested erasure by such controllers of any links to, or copy or replication of, those personal data, as far as processing is not required. An employees of the <http://binaryoptionsauthority.com> will arrange the necessary measures in individual cases.

e) Right of restriction of processing

Each data subject shall have the right granted by the European legislator to obtain from the controller restriction of processing where one of the following applies:

The accuracy of the personal data is contested by the data subject, for a period enabling the controller to verify the accuracy of the personal data.

The processing is unlawful and the data subject opposes the erasure of the personal data and requests instead the restriction of their use instead.

The controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims.

The data subject has objected to processing pursuant to Article 21(1) of the GDPR pending the verification whether the legitimate grounds of the controller override those of the data subject.

If one of the aforementioned conditions is met, and a data subject wishes to request the restriction of the processing of personal data stored by the <http://binaryoptionsauthority.com>, he or she may at any time contact any employee of the controller. The employee of the <http://binaryoptionsauthority.com> will arrange the restriction of the processing.

f) Right to data portability

Each data subject shall have the right granted by the European legislator, to receive the personal data concerning him or her, which was provided to a controller, in a structured, commonly used and machine-readable format. He or she shall have the right to transmit those data to another controller without hindrance from the controller to which the personal data have been provided, as long as the processing is based on consent pursuant to point (a) of Article 6(1) of the GDPR or point (a) of Article 9(2) of the GDPR, or on a contract pursuant to point (b) of Article 6(1) of the GDPR, and the processing is carried out by automated means, as long as the processing is not necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Furthermore, in exercising his or her right to data

portability pursuant to Article 20(1) of the GDPR, the data subject shall have the right to have personal data transmitted directly from one controller to another, where technically feasible and when doing so does not adversely affect the rights and freedoms of others.

In order to assert the right to data portability, the data subject may at any time contact any employee of the <http://binaryoptionsauthority.com>.

g) Right to object

Each data subject shall have the right granted by the European legislator to object, on grounds relating to his or her particular situation, at any time, to processing of personal data concerning him or her, which is based on point (e) or (f) of Article 6(1) of the GDPR. This also applies to profiling based on these provisions.

The <http://binaryoptionsauthority.com> shall no longer process the personal data in the event of the objection, unless we can demonstrate compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject, or for the establishment, exercise or defence of legal claims.

If the <http://binaryoptionsauthority.com> processes personal data for direct marketing purposes, the data subject shall have the right to object at any time to processing of personal data concerning him or her for such marketing. This applies to profiling to the extent that it is related to such direct marketing. If the data subject objects to the

<http://binaryoptionsauthority.com> to the processing for direct marketing purposes, the <http://binaryoptionsauthority.com> will no longer process the personal data for these purposes.

In addition, the data subject has the right, on grounds relating to his or her particular situation, to object to processing of personal data concerning him or her by the <http://binaryoptionsauthority.com> for scientific or historical research purposes, or for statistical purposes pursuant to Article 89(1) of the GDPR, unless the processing is necessary for the performance of a task carried out for reasons of public interest.

In order to exercise the right to object, the data subject may contact any employee of the <http://binaryoptionsauthority.com>. In addition, the data subject is free in the context of the use of information society services, and notwithstanding Directive 2002/58/EC, to use his or her right to object by automated means using technical specifications.

h) Automated individual decision-making, including profiling

Each data subject shall have the right granted by the European legislator not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning him or her, or similarly significantly affects him or her, as long as the decision (1) is not necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) is not authorised by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data

subject's rights and freedoms and legitimate interests, or (3) is not based on the data subject's explicit consent.

If the decision (1) is necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) it is based on the data subject's explicit consent, the <http://binaryoptionsauthority.com> shall implement suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, at least the right to obtain human intervention on the part of the controller, to express his or her point of view and contest the decision.

If the data subject wishes to exercise the rights concerning automated individual decision-making, he or she may, at any time, contact any employee of the <http://binaryoptionsauthority.com>.

i) Right to withdraw data protection consent

Each data subject shall have the right granted by the European legislator to withdraw his or her consent to processing of his or her personal data at any time.

If the data subject wishes to exercise the right to withdraw the consent, he or she may, at any time, contact any employee of the <http://binaryoptionsauthority.com>.

13. Data protection for applications and the application procedures

The data controller shall collect and process the personal

data of applicants for the purpose of the processing of the application procedure. The processing may also be carried out electronically. This is the case, in particular, if an applicant submits corresponding application documents by e-mail or by means of a web form on the website to the controller. If the data controller concludes an employment contract with an applicant, the submitted data will be stored for the purpose of processing the employment relationship in compliance with legal requirements. If no employment contract is concluded with the applicant by the controller, the application documents shall be automatically erased two months after notification of the refusal decision, provided that no other legitimate interests of the controller are opposed to the erasure. Other legitimate interest in this relation is, e.g. a burden of proof in a procedure under the General Equal Treatment Act (AGG).

14. Legal basis for the processing

Art. 6(1) lit. a GDPR serves as the legal basis for processing operations for which we obtain consent for a specific processing purpose. If the processing of personal data is necessary for the performance of a contract to which the data subject is party, as is the case, for example, when processing operations are necessary for the supply of goods or to provide any other service, the processing is based on Article 6(1) lit. b GDPR. The same applies to such processing operations which are necessary for carrying

out pre-contractual measures, for example in the case of inquiries concerning our products or services. Is our company subject to a legal obligation by which processing of personal data is required, such as for the fulfillment of tax obligations, the processing is based on Art. 6(1) lit. c GDPR. In rare cases, the processing of personal data may be necessary to protect the vital interests of the data subject or of another natural person. This would be the case, for example, if a visitor were injured in our company and his name, age, health insurance data or other vital information would have to be passed on to a doctor, hospital or other third party. Then the processing would be based on Art. 6(1) lit. d GDPR. Finally, processing operations could be based on Article 6(1) lit. f GDPR. This legal basis is used for processing operations which are not covered by any of the abovementioned legal grounds, if processing is necessary for the purposes of the legitimate interests pursued by our company or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data. Such processing operations are particularly permissible because they have been specifically mentioned by the European legislator. He considered that a legitimate interest could be assumed if the data subject is a client of the controller (Recital 47 Sentence 2 GDPR).

15. The legitimate interests pursued by the controller or by a

third party

Where the processing of personal data is based on Article 6(1) lit. f GDPR our legitimate interest is to carry out our business in favor of the well-being of all our employees and the shareholders.

16. Period for which the personal data will be stored

The criteria used to determine the period of storage of personal data is the respective statutory retention period. After expiration of that period, the corresponding data is routinely deleted, as long as it is no longer necessary for the fulfillment of the contract or the initiation of a contract.

17. Provision of personal data as statutory or contractual requirement; Requirement necessary to enter into a contract; Obligation of the data subject to provide the personal data; possible consequences of failure to provide such data

We clarify that the provision of personal data is partly required by law (e.g. tax regulations) or can also result from contractual provisions (e.g. information on the contractual partner). Sometimes it may be necessary to conclude a contract that the data subject provides us with personal data, which must subsequently be processed by us. The data subject is, for example, obliged to provide us with personal data when our company signs a contract with him or her. The non-provision of the personal data would have the consequence that the contract with the data subject could not be

concluded. Before personal data is provided by the data subject, the data subject must contact any employee. The employee clarifies to the data subject whether the provision of the personal data is required by law or contract or is necessary for the conclusion of the contract, whether there is an obligation to provide the personal data and the consequences of non-provision of the personal data.

18. Existence of automated decision-making

As a responsible company, we do not use automatic decision-making or profiling.

This Privacy Policy has been generated by the Privacy Policy Generator of the German Association for Data Protection that was developed in cooperation with Privacy Lawyers from WILDE BEUGER SOLMECKE, Cologne.

Comments

When visitors leave comments on the site we collect the data shown in the comments form, and also the visitor's IP address and browser user agent string to help spam detection.

An anonymized string created from your email address (also called a hash) may be provided to the Gravatar service to see if you are using it. The Gravatar service privacy policy is available here: <https://automattic.com/privacy/>. After approval of your comment, your profile picture is visible to the public in the context of your comment.

Media

If you upload images to the website, you should avoid uploading images with embedded location data (EXIF GPS)

included. Visitors to the website can download and extract any location data from images on the website.

Cookies

If you leave a comment on our site you may opt-in to saving your name, email address and website in cookies. These are for your convenience so that you do not have to fill in your details again when you leave another comment. These cookies will last for one year.

If you have an account and you log in to this site, we will set a temporary cookie to determine if your browser accepts cookies. This cookie contains no personal data and is discarded when you close your browser.

When you log in, we will also set up several cookies to save your login information and your screen display choices. Login cookies last for two days, and screen options cookies last for a year. If you select "Remember Me", your login will persist for two weeks. If you log out of your account, the login cookies will be removed.

If you edit or publish an article, an additional cookie will be saved in your browser. This cookie includes no personal data and simply indicates the post ID of the article you just edited. It expires after 1 day.

Embedded content from other websites

Articles on this site may include embedded content (e.g. videos, images, articles, etc.). Embedded content from other websites behaves in the exact same way as if the visitor has visited the other website.

These websites may collect data about you, use cookies, embed additional third-party tracking, and monitor your interaction with that embedded content, including tracing your interaction

with the embedded content if you have an account and are logged in to that website.

Who we share your data with

How long we retain your data

If you leave a comment, the comment and its metadata are retained indefinitely. This is so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue.

For users that register on our website (if any), we also store the personal information they provide in their user profile. All users can see, edit, or delete their personal information at any time (except they cannot change their username). Website administrators can also see and edit that information.

What rights you have over your data

If you have an account on this site, or have left comments, you can request to receive an exported file of the personal data we hold about you, including any data you have provided to us. You can also request that we erase any personal data we hold about you. This does not include any data we are obliged to keep for administrative, legal, or security purposes.

Where we send your data

Visitor comments may be checked through an automated spam detection service.
