Trading System Specific FAQ

1. This system was designed to trade in only 3 hours a day. You can trade more than that if you want, yes, but why? Just be consistent on that 3 hour period then it's simply a game of money management from there. Avoid tiring your self out.
2. How to trade the system: Learn the system, practice it, then trade with the smallest real money positions until you get a hang of trading the system. Then just make a success habit out of trading the system the right way. Trading can then become very simple. Keep your position sizes even. Be consistent! Trade all of the trades. Do not cherry pick the trades trying to only 'go for the best ones' – you'll screw it up that way. Just mindlessly and simply trade the system – don't strain yourself!
3. No robots, EA's, or any of that junk. Just a real trading system.
4. Very little "thinking" or guessing involved. Simplified method for smashing out profits.

The system results below represent the entry mechanism as

triggered on the given date below. We have a system performance sample below to give you a picture of the system. The result below is based on the exact system rules so what you see is what you'll be getting in terms of the entry strategy.
