CRANKER Summary of System Performance Results

System built for NADEX 20 Min Exp ATM Binaries. Or slightly ITM.

RTY - US SMALL CAP 2000 - for the provided samples - RTY

Net 28 - all day. "Net 28" means wins minus losses. So if at a perfect ATM of \$50 profit on a winning trade NET 28 Means $\$50 \times 28 = \$1,400$ for 1 contract or \$14,000 for 10 contracts. Or \$140,000 for the day on 100 contracts.

Net 28 All day

Net 15 for 3 hours 40 minutes

Net 9 for 3 hours 40 minutes. Plus net 8 for 2 hours later in the day. So net 17 for this day.

Net 29 for day.

Net 16 for 3 hours

DOW 30 Performance - YM

Net 28 + 10 so net 38 all day all day

Net 27 + 6 so net 33 all day

Net 27 for All Day

Net 22 for all day

Net 11 for 2 hours

Net 10 for 2 hours
