

# NADEX 101 Launches

## NADEX 101

### NADEX is a different beast!

A TOTALLY different but very awesome new style of binary options.

Look, I used to be a 'NADEX slacker'. Before, I heard they only had 2 hour binaries. Boring... I thought. But I did not understand. NADEX at the time certainly did not help with their exceptionally boring marketing. (It's better now but they still have ways to go...)

But then I heard they started making improvements adding a 20 minute binary option then a 5 minute binary option so then I started to investigate.

Lo and behold!

After much studying and testing of NADEX binary options my brain 'lit up' with wonder and excitement. I began to feel that I just discovered a massive stockpile of hidden treasure on a deserted island. When I realized the Profit Opportunity at NADEX with their 3 Core primary factors, I finally UNDERSTOOD that there was so much money to be made at NADEX!!

Come with me on this journey through NADEX. I'll explain, translate NADEX 'broker speak' and show you practically, directly and strategically ways to profit at NADEX. I'll explain the best strategic approaches to trade each type of binary. I'll explain the SIGNIFICANT advantage you'll have their trading their ATM, ITM and OTM binaries.

I mean come on, are you getting 100% binaries at your broker? How about 300% binaries that you could make several

times a day?

How about this: A system that wins 60% of the time trading \$1000 a trade on a 70% Spotoption style 'traditional' binary broker makes you \$200 every 10 trades. A NADEX At the Money binary on the same system makes you \$2000 over 10 trades. A NADEX Out of the Money Binary (at 30) makes you roughly \$13,700 in comparison ( you can see the exact math breakdown in the course). WHAT? Did you see that? \$200 vs. \$13,700?!!

The ATM Binary at NADEX is similar to what you're used to trading. The OTM binary you pair with a momentum break or bounce system and you don't need that much momentum, depending on the expiration you're playing. Anyways, I'll explain it all in the course. Go get it! It could be one of the best things you do for the next 10 years!
