

# What is DOPETUALPOPS?

**DOPETUALPOPS is a trading system. It's a day trading system. It's a day trading system that trades in a couple minutes and night. It was designed for Ultra efficiency.**

**Why do we want Ultra efficiency in trading systems? So we can develop multiple streams of cash flow and be able to manage them very easily. Wouldn't you want this too?**

Wouldn't it be nice to have multiple streams of cash flow growing your trading account on a weekly and monthly basis?

Why multiple streams of cash flow? Diversification! Some methods do better than others during certain phases of price behavior of price action. And then this behaviour cycles back and forth so then this way we can put ourselves in a position for more robust, solid, repeatable cash flow.

DOPETUALPOPS Is a great discovery in solid approach particularly with, well, all forms of trading: futures, Forex, stocks, vanilla options, binary options, NADEX spreads and knockouts – ALL.

Also, DOPETUALPOPS has a more moderate pacing which is probably better for a lot of traders vs some of our other [PETUALPOPS based trading systems and signals services](#), which trade more often even almost everyday.

[Here is our binary options version of DOPETUALPOPS trading](#)

[signals](#). It's super easy to trade, as a minute or two a night and that's it. We let it go to expiration. It trades ATM binaries.

Most trading days you will get a good amount of follow-through, so if you wanted to be more active in using the DOPETUALPOPS trading signal then you could trade further out-of-the-money binaries, ride the momentum, and get out with a larger profit, potentially a 200% to 300% or even 400% profit vs the 100% profit in the binaries. And that's fun!

But on the other hand, DOPETUALPOPS is designed as a set and forget style system where we just get in at the at the money binary and let it go to expiration the next day. We get in between usually, 6 and 7 p.m. Eastern time. DOPETUALPOPS is designed to make life MORE EASY. Think about it: day trading in only ~ 2 minutes a day? That's pretty wild isn't it!

We send you an email when there's a new signal and you just log in to get the signal.

DOPETUALPOPS Could be a potential great addition to your multiple streams of cash flow building an empire. [Check out some more information here and you can get started today](#)
