

# Wanna Be, Wanna be Like Eddie – STRIKER9 Pro Student Gets it and Goes 10W and Zero Losses

Wanna Be, Wanna be Like Eddie – STRIKER9 Pro Student Gets it and Goes 10W and Zero Losses

Hey guys I wanted to show you a quick real trading proof from a student of ours named Eddie SR. The guy is now set on the path to potential long term trading success after having purchased our STRIKER9 Pro system. We're extremely proud of him and feel like he could become a 'player'

down the road – someone who can pull in ridiculous numbers on a daily basis – one of those.

Yet, it didn't start that way first. Eddie was missing a couple key ingredients after he obtained the course and had gone through it. Well, we worked with him, corrected a couple of things (and even made some extra videos for this course

to help more easily understand this powerful trading system.

Finally it clicked for Eddie. He sent us his daily results just to

check with us. Finally Eddie made a breakthrough. And he started

winning! Actually it was more like cleaning house! – with STRIKER9

Pro.

Check out how Eddie blasts 10 Winners in a row – 10 wins and Zero

losses for the day on Oct 6.

I wanted to tell you about Eddie and also give you a heads up. Shortly we'll be launching about 7 new binary options systems designed specifically for index options, Forex options and gold options.

After we launch those we'll be forced to raise the price of STRIKER9 pro up \$1,000 more (there are still some left from last offer).

So if you want to join the ridiculousness on a trading system that should not even exist, or at least be offered publically get it while you can!

This system is rock solid and you will be able to verify the results.

The information in the system is highly proprietary and has many other applications. Therefore, I'm only looking for traders who are dead serious about trading well.

If you're in trading for the rush of trading or are desperate for money

I don't want you buying this product, or any of our systems. But if you are sick and tired of putzing around with the markets and are willing to do whatever it takes to do it right so you could actually trade for a potentially very good living (there's no better lifestyle folks!) then I will personally help you over a skype / team viewer session to MAKE SURE you've got this system down and can trade it well.

Customer feedback: "...But I am even MORE grateful and THANKFUL for the session yesterday. Chris was really good at showing me exactly how to work the system. Now I know what I'm doing. " DP in Cali

NEW RESULTS STRIKER9 PRO XF Integration with New Extender Module:

SYSTEM NET PROFIT: \$41,900.00

\$2,095.00 Per Day \$500 Per Trade
