# **Approach – So We Designed WILBUR1.7**

**Success with 5 Minute Binaries  
Requires a Solid Systematic  
Approach that is Simple in Concept.  
After You Demo Account Practice the  
System till You Get it Down Pat  
then Just Start Small and Steadily  
Build Up Position Sizing to Normal  
in Order to Put Yourself in a Great  
Position to Succeed.**

## **Performance Sample**

- Solid method. Clear singles. Nice pacing.
- Example show with “ATM” binaries where in slower markets we’ll well tend to go slightly ITM and in faster markets we will look to favor the next strike OTM.
- This may be a good solution for those who have been struggling with NADEX 5 min binaries.
- Trade this system when it is most convenient to you. Because in faster markets you usually have slower deltas; in slower markets (i.e. “dead zone” or just a slower time of day on average) you usually have faster deltas. Faster deltas means you need less of a move from the underlying asset to make it into ITM or blip up to 90ish and cash out.

- Trading for 3 hours period.
- NADEX 5 minute binaries.
- New developed system concept.

## **Here's What You're Getting When You Purchase NADEX 5 Minute Binary Options System – WILBUR1.7 Today...**

### **Trades NADEX 5 Minute Expiration Binaries with Forex using ~ATM Options**

We are looking at roughly an "At the Money " type of position which you know is more like an "Near the Money" position. On slower days we favor the ITM side. On faster days, time periods we'll favor the OTM side since moving a few pips is not a problem on faster days.

### **Start Small and Build with this Solid System**

Here's a tip: Start with a demo then just 1 contract. Just get comfortable trading the system correctly using 1 contract. Then naturally increase your position size from there. Go slow and steady, do things right for that is the way to make fast progress. ..

### **Flexible System: Trades During Most**

# All Hours of the Day

Due to the nature of this system you have an approach that can trade in fast markets or slow, during fast times during the day or slow times. This is helpful for those who are in different countries or who want to trade before or after work. This is the case because we are trading Forex with the NADEX 5 minute binary options.
